

This Summer

Superchunk

Oh this summer
We won't regret what we cannot know
Or make a nap for a fry offer this house
Yeah they can cancel all our shows
Who make a break for the bridge after raiding a fridge
Pick up your friends and ball through more
My parade of ships and it take full of heads
And the forget what came before

It's hard for forget
And it's hard for forgot
It's hard for forget when it's hard for forgot
Holy up

Oh this summer
We are soldiers who good to me
And our horizon is heavy and holds back the clouds
We've got a clear path out to the sea
We split the city of joy where the roads are free
Well hit the lobsters shock and stood
My parade of hips and it take full of
And the sleeping bad on the floor

We got sway seats in an ocean new
And it feels like a time machine
When you can't forget what you never knew
So come race this summer with me

Oh this summer oh oh
I roll it battle where we cannot change
Or we can take the crowns of a holla these crowns
And the river what hope remains

We got sway seats in an ocean new
And it feels like a time machine
When you can't forget what you never knew
So come race this summer with me
We got sway seats in an ocean new
And it feels like a time machine
When you can't forget what you never knew
So come race this summer with me
