

## Train on Fire

Superchunk

Now I'm a train that's been on fire  
Burning for days in the rain  
Make my own clouds so many times  
You don't even think this is strange

Smoking out the town  
Sulfur on the ground  
Why you don't see me?  
I can't explain  
Oh, oh  
Whoa, oh

Yeah, I'm a train that's on fire  
Drag me away, drag me away  
When you're a train that's on fire  
There is no way to safely stay

Piece by piece and part by part  
Every rib around your heart  
Salvage what you can  
Bury the rest in rocks and sand

Now I'm a train that's on fire  
Drag me away, drag me away

Now I'm a train that's on fire  
Burning for days in the rain  
You thought you took me apart  
But I'm a wreck once again

Yeah, yeah  
Yeah, yeah
