

# What Can We Do

Superchunk

What can we do?  
What can we do?

Some people go through life  
All they see is red lights  
We don't wanna live like that  
Get tied up, get trapped  
You always saw the way ahead  
Get your hammer, get your thread  
And honey, I've been thinking  
Our little island might be sinking  
Let's build something new  
And I want to ask you  
What can we do?

Now everything is different  
And everything's the same  
Can't find the words to capture  
So I guess I can't complain

There's got to be a way to see it  
The city, the sea, the light  
An angle where it doesn't feel fake  
Look pale, feel slight  
Can we put the earth back under  
Our feet and feel it rumble?  
You've got a paper, you've got supplies  
You've got wrinkles around your eyes  
I want to kiss them when they close  
Meet you on the corner every time it snows  
I've got wrinkles around my eyes  
I'll say I love you, I won't say goodbye  
I'll say I love you, I won't say goodbye  
I'll say I love you, I won't say goodbye

And every day I want to ask you  
But I can't ask you

What can we do?  
What can we do?  
What can we do?

Was the question you always had, it's true  
Now we're putting it back to you

What can we do?
