

You Can Always Count on Me (In the Worst Way)

Superchunk

You can always
You can always count on me
You can always count on me
In the worst way
Oh, in the worst way

You can always
You can always count on me
You can always count on me
In the worst way
Oh, in the worst way

To make you feel worse
Than you do
To point what is right
In front of you
To push the button
That will topple your support
To bring you down where
You have never been before

You can always count on me
You can always count on me
Ooh, ooh
In the worst way
Oh, in the worst way
In the worst way
Oh, in the worst way
In the worst way
Oh, in the worst way
