

Hellbent

Superdrag

Yeah

I was hellbent to burn up the world with a beautiful girl I created

Then my god said, "take a powerful pill like a fool on the hill"

And I waited.

Everybody wants to hang around

Everybody wants to bring me down

This simple prayer I say without a sound

Get me off the ground

Man I lost it

I was losing my mind

I was dying to find a salvation

But I'm changing

I am making her mind and I'm trying to be a sensation

Everybody wants to hang around

Everybody wants to bring me down

This simple prayer I say without a sound

Get me off the ground

Yeah.
