

## Remain Yer Strange

Superdrag

She once in awhile does everything all for denial  
I don't understand isn't it good hope in your hand

And I don't wanna hear about how everything is different now  
Are you ever going to change  
I hope you always remain  
Remain yer strange  
Remain yer strange

She's sitting at home says all she can over the phone  
I don't wanna go but I can't do that if she don't say no

And I don't wanna hear about how everything is different now  
Are you ever going to change  
I hope you always remain  
Remain yer strange  
Remain yer strange

And I won't ever go  
I found you once you know  
When all is said and done  
Girl you're the only one

Remain yer strange  
Remain yer strange  
Remain yer strange  
Remain yer strange.
