

## Sleeping Beauty

Superdrag

Nicotine, more than an hour  
I get clean, blood comes sour  
When you throw down good eye clouded  
'Cause you missed me

It's been years, adding up hours  
None too clear  
Superpower takes me so down  
So down, so down think I'm drowning  
Could you kiss me?

It shall be right  
I swear but I lie  
If you can see right  
Through the spaces in goodbye
