

Deny U

Superfruit

You wanna be honest with me, and I
I wanna be honest with you, let's go
We both can be selfish
But I'll be the first to say
It hurts me to hurt you

Can't count the times that you crossed over the line
But it don't get easier
And it stopped being fun
But we don't trigger the gun
And it don't get easier
Now you got what you need
I should be relieved
But it don't get easier
Goes on and on and on
You're still the one, the one, the one

Bittersweet, I know
So bittersweet, I know
You repeat, let's go
Try but I can't deny you
Bittersweet, I know
So bittersweet, I know
You repeat, let's go
Try but I can't deny you
Try but I can't deny you
Try but I can't deny you
Try but I can't deny you
Try but I can't deny you

You felt this one coming and so did I
I felt you fall back but I can't let go
We both can be fragile
But I'll be the first to say
It breaks me to break you

Bittersweet, I know
So bittersweet, I know
You repeat, let's go
Try but I can't deny you
Bittersweet, I know (I know)
So bittersweet, I know
You repeat, let's go (let's go)
Try but I can't deny you
Try but I can't deny you (I try, I try)
Try but I can't deny you (I can't deny ya)
Try but I can't deny you
I try but I can't deny you

Can't count the times that you crossed over the line
But it don't get easier
And it stopped being fun
But we don't trigger the gun
And it don't get easier
Now you got what you need
I should be relieved
But it don't get easier

Goes on and on and on
Goes on and on and on
You're still the one, the one, the one
Hey baby

Bittersweet, I know (I know)
So bittersweet, I know (I know)
You repeat, let's go
Try but I can't deny you
Bittersweet, I know (oh...)
So bittersweet, I know (oh...)
You repeat, let's go
Try but I can't deny you
Try but I can't deny you
Try but I can't deny you
Try but I can't deny you
Try but I can't deny you
