

# Everything

Superfruit

Set the scene  
I woke up from a bad dream  
Something's chasing me  
Is this home or am I in a movie?  
With an unhappy ending  
Wait around for a sign or a new sound  
So I can hit the ground running, oh honey  
Would you like to come with me?

I've given my everything, everything  
I'd give it with feeling  
A sentimental man  
I've given my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can

Shake it off, no it's not always easy  
I just need some time  
Kill me now, with all of your kindness  
Help me change my mind  
Take me there, to a sign or a new sound  
Look at us, we're off and running, oh honey  
To a place I'd rather be

I've given my everything, everything  
I'd give it with feeling  
A sentimental man  
I've given my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can  
I've given my everything, everything  
I'd give it with feeling  
A sentimental man  
I've given my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can

I've given my everything, everything  
I'd give it with feeling  
A sentimental man  
I've given my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can  
I've given my everything, everything  
I'd give it with feeling  
A sentimental man  
I've given my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can
