

Fantasy

Superfruit

Paradise, every night
When we turn off all the lights
Evergreen, chemistry
It feels like it's all a dream

We both have secrets
But you got me speechless
You know, wherever you go
I'll follow

Cause I need you now
Cause we're living in a fantasy
Just for now
When I close my eyes
It's you and me
I need you now
Cause you're giving me what I need
Just for now
We're living in a fantasy

Up and down, side to side
We could do this all the time
Tszuj it left, twist it right
You've got me so hypnotized

We both have secrets
But you got me speechless
You know, wherever you go
I'll follow

Cause I need you now
Cause we're living in a fantasy
Just for now
When I close my eyes
It's you and me
I need you now
Cause you're giving me what I need
Just for now
We're living in a fantasy
We're living in a fantasy

Take me back to your wonderland
All the things we haven't even tried
Hear the bang bang
Cause you're calling my name
And every day, day
Want you with me when I'm awake
All our bodies slowly to gravitate
We can make this fate
Can I ask for naughty please?
What you're doing's so unfair to me
Don't wanna waste no time
Want you in my mind
Tell me where you want me for the time I suppose
I'll be humming love tunes, lost in the thought of you

Cause I need you now

Cause we're living in a fantasy
Just for now
When I close my eyes
It's you and me
Cause I need you now
Cause you're giving me what I need
Just for now
We're living in a fantasy
We're living in a fantasy
