

Cruel Times

Superheaven

I don't wanna be your limitation
Be whatever pulls you back down
I could never see you out there waiting
I don't wanna hold you back now

Cruel times
We'll never see 'em again
Big failures
And even better friends
I can't wait
For you to see what we all see now

I just wanna be your inspiration
Shining like the sun through pitch black
I could never see you out there waiting
We were never meant to come back

Cruel times
We'll never see 'em again
Big failures
And even better friends
I can't wait
For you to see what we all see now
