

Sheltered

Superheaven

All across the universe, for all of us to see
There's no room for both of us
Part ways at sea

I grew up in the woods with nobody's help
Build my own fort in the trees to keep to myself

I want to be erased from life if you're still there

All across the universe, for all of us to see
There's no room for both of us
Part ways at sea

I would wait for you to come
A puppet, you see
Lose my eyes under your couch
I can see, but I can't hear

I want to be erased from life if you're still there
It hurts me to know how small I really am

Kept me safe from evil things
Sheltered me from this world
