

# Happy Wasted

Superheist

Cut loose with u and your crew  
Hey dog u do What u wanna do  
No crime just high defining times  
U won't need a sick mind  
Right here in this place We'll get u while your movin  
Despair, repair it's where? It's right here in your face

No one can tell u what 2 do it's all up 2 u Your mind is set so  
follow thru!  
Teenage angst and your out tonight And your happy wasted  
No one can tell u what is right When your happy wasted

Who's got u in tow Who's ridin your show  
Who's makin u break out I don't know  
I don't like what I see I don't like what u be  
I don't like what u are in front of me  
Who goes who flows who tows the line in ya profile  
Freestyle and fall by the wayside It's your space to deface  
And yeah hell watch ya back kid Right now it's a jungle and emo  
tive  
In time you'll find the sign 2 define  
all the things in your life

Who says u  
can't decide  
Are u happy wasted  
Is this your suicide  
Are u happy wasted
