

## Step Back

Superheist

Strap up, strap down;  
I really hope my generation doesn't fall down;  
I've seen my way in therapy,  
I hope I fade, before I age;  
It's so contagious don't you say?  
(Chorus)  
When I come to face tomorrow  
I hope I needed it yesterday;  
Then I'll breathe in your life,  
Wrap it up and break away.  
Step back, stepdown, step around my  
My face, it bleeds like a ghost  
As I walk back through history;  
The moment fades, pretty stains,  
It's so contagious don't you say?  
(Chorus) x2  
I'm so depleted;  
No one needs it  
No one needs it  
(Chorus) x2  
I'm so depleted;  
Rain dogged the seasons;  
My golden dreams sold,  
No one needs it  
No one needs it
