

## Symbol of Nevermore

### Superjoint Ritual

We'll never see the light of eyes, the twist of might  
The loss of sight, contracted gate, reward of hate  
Forgotten wisdom, the grinding flesh  
My God beats the fuck out of your God

The father of plague, fallen from heaven  
For war, the ultimate war, the ultimate transgression  
Several times over, your safety compromised  
The hated race, the simple emotion
