

# Infinity

SuperM

To infinity, yeah

I'm the other one chillin' with them other ones  
Keep crushing like the epicenter of the sun  
No pressure but we pressin' so you better run  
We bring another dawn, we only just begun

Star blazin' by laser beam  
This that fuel we run on  
See that vision, live the dream  
Open the gates and we take off  
No face off, ya'll better scream your face off  
All the way back to that nose bleed spot  
And every time we drop, no stoppin'

No stoppin'  
That's the mission, nothing less  
Put in heart, put in soul  
Feel it banging in my chest

From outta the ashes  
To ridin' in the west  
Through the flames, rise  
Finally I feel the fire setting in  
Like a blaze of glory  
Goin' overdrive  
Gonna live my story  
Everything I do to feel alive, alright

No games, watch me deliver every time  
Catch me in the latest driving spaceships  
One way, we going up, ain't no decline  
Landing in the matrix, tryna break it

Hands up nareul neukkyeobwa yeah  
All the way to infinity, yeah  
Aim high, we going up, there's no decline  
So if you're aiming anywhere, aim high

I'm the other one chillin' with them other ones  
Move into overdrive (Other one)  
I'm the other one chillin' with them other ones  
Yeah, other one

Nothing to phase us, uh, shoot for the sky  
Double amazing, yeah, triple the fly  
Whatever we're on  
Thinking I'm outta my zone  
Still in my element  
Can't quit  
Energy constant  
Ready to run this, whoa

Yeah, I'm not here to tell no lies  
(Hold up) You know this drip will never dry  
(Show up) Check the work rate, I'm on my grind  
(Chop, chop) 'Til infinity beyond the sky

Like a blaze of glory  
Goin' overdrive  
Gonna live my story  
Everything I do to feel alive, alright

(No games) Watch me deliver every time  
(Catch me) In the latest driving spaceships

Life's never slowing  
Just keeps on going  
Like waves in the ocean, yeah  
Feel my power growing everyday  
Never seen a mountain too big for me  
I'm gon be alright  
Got forever on my mind

No pressure but we pressin' so you better run
