

# Monster

SuperM

You hear me walk into your town, right? Sounds right  
Feel that rumble in the ground, right? Don't lie  
I'm the one, better run  
If you wit' it, oh, then you're done, done, done  
Dark cloud blocking out the sun  
I ain't scared, got me feeling kind of numb

Yeah, it's a problem, I know  
Tell me somethin' I don't know  
What you got? I got more  
Keep it coming with that reload  
Ain't no stopping me though  
I go and I lose control

Fading light, I feel it crawling in  
Holding on, the danger's coming way too close  
But I won't let go

Gogael deureo Hear it talking to me  
In my body, from the shadow waking up  
Bring the battle, gimme what I want

Deep in the night, taken from a bad dream though  
Feel the fright, never shakin' up the team, no  
Come around, talking loud, see what I'm about  
Shake the town, take you down, I'm a woo, woo

Say what you like, you got nothin' on me though  
First strike, never running from a beast, no  
Can't nobody dare to block us, block us  
'Cause you know that I'm a monster, monster

Nallyeo Make 'em drop, yeah (One)  
Not enough, level up  
You wanna see how I get down like, yeah right  
Uri umjigimeun geodaeham geu hana  
Break you with that left, with that right  
Make you feel the fire  
You ain't got the moves or the fuel  
That's the bottom line  
Think you're ready for the monster, monster  
No turning back if you wanna face me, no

Tried to warn ya, we was coming in  
Got no time for all this arguin', oh no  
It's way beyond control
