

## Water Not War

## Superman Is Dead

Above the silent of this burning clouds  
Why should I cry If I know I'm gonna fall  
I lost my breath when I get into the crowds  
All the drive is so hot

Until the day keep me out of this storm  
I see the hope lays under machine gun  
And no other wanna try to save my soul  
try to save my soul

Day by the day I'm sailing to the crowds  
Pick up the line, taking up into the sound  
How many days should I stay out of drying?  
No one care and I don't mind (anymore)

try to save my soul

Day by the day I'm sailing to the crowds  
Pick up the line, taking up into the sound  
How many days should I stay out of drying?  
No one care and I don't mind

When I'm drowning to the ground  
Going blind losing my sound...of getting back  
Who's gonna dream, instead of war

Day by the day I'm sailing to the crowds  
Pick up the line, taking up into the sound  
How many days should I stay out of drying?  
No one care and I don't mind
