

# Everybody Wants To Be Famous

## Superorganism

Feeling like a boss, and  
Staring at the stars, it  
Doesn't matter the cost, cause  
Everybody wants to be famous  
I'm calling the shots, so  
See you over at Mars, it  
Doesn't matter the cost, seems like  
Everybody wants to be-

I think it could be me  
The world's too small for me  
My face up in your face  
My face on every screen

Feeling like a boss, and  
Staring at the stars, it  
Doesn't matter the cost, cause  
Everybody wants to be famous  
I'm calling the shots, so  
See you over at Mars, it  
Doesn't matter the cost, seems like  
Everybody wants to be-

I think that you and I  
Could set the world alight  
Cause we're all stars tonight  
Just need to figure out why

Feeling like a boss, and  
Staring at the stars, it  
Doesn't matter the cost, cause  
Everybody wants to be famous  
I'm calling the shots, so  
See you over at Mars, it  
Doesn't matter the cost, seems like  
Everybody wants to be famous

Everybody wants, nobody's ashamed  
Everybody wants you to know their name  
Everybody wants, nobody's ashamed  
Everybody wants to be famous

Everybody wants, nobody's ashamed  
Everybody wants you to know their name  
Everybody wants, nobody's ashamed  
Everybody wants to be famous

Everybody wants, nobody's ashamed  
Everybody wants you to know their name  
Everybody wants, nobody's ashamed  
Everybody wants to be famous

Feeling like a boss, and  
Staring at the stars, it  
Doesn't matter the cost, cause  
Everybody wants to be famous  
I'm calling the shots, so

See you over at Mars, it  
Doesn't matter the cost, seems like  
Everybody wants to be famous
