

Where I Stand

Supertramp

Well I'm a wreck and I'm a tangle
And tho I try to find an angle
Can't find my way around you
No matter what I do

And nothing's right since you left me
My life was full but now it's empty
Can't find my way around you

You say, that you can't see a way
That I can be a part of you
It doesn't matter what I do

Tried every trick that I could think of
But you don't seem to think it's true love
You take no notice of me

Oh my, chance has passed me by
See a way to change your mind
Just let me know and I'll keep trying

All my confidence is gone
I was pretty sure that you would come along
Thought that I would be your man
But now I never know just where I stand
With you

I used to be the kind of guy
Who could be in your arms before you'd realize
Now the tables have been turned
If you play with fire you know you sure get burned

All my confidence...

Just where I stand, where I stand
where I stand with you
I never know, you had to go
where I stand with you
You broke my heart
It came apart
Where do I stand with you?
