

## Function Disabled

Support Lesbiens

To be cool, to be free. To be all you like and love on me.  
You're looking at me, I can't be cold.  
So you're looking wild, I'll do you up and go.  
I was thinking, a bit of a drinking.  
And we are riding to my home.  
To be cool. To be free. To be all you like and love on me.  
To be liked, but libido's on hold.

The function fucked up and disabled.

To be caught with such a tendency.  
To be someone's boy I better be.  
The more I like it, the more I might it.  
The more I get unsolved. To behold, that I need a plea.  
To be a someone's boy I better be.  
You're looking at me, I'm not cold.  
Though you're looking wild, I have to let you go.
