

We are the criminals
I sad fight what you might
And try to stay alive
Because your botherhood is angry
And all hands are up
Addicted to the systém
Addicted to this all
You didn't catch a wave
So you'd rather catch a cold
Them daddy's them that's the boy
Easy lika to draw
But you drawings little odd
Plug it in the out put
And see what it gives
Rather make it fast
Or they'll put you on the trouble list
Jail
Suppose we are the criminals
Heal inside of your head
And we will try it again
Blood like a sweat
We're coming for a piece of a liberty
Heal inside of your head
And we will try it again
Blood like a sweat
Do you think another couple of lines will fit
Do you think another couple of lines well jam
We're coming for a piece of a liberty
Heal inside of your head
And we will try it again
Blood like a sweat
We're coming for a piece of liberty
Heal inside of your head
And we will try it again
Blood like a sweat
We're coming for a piece of a liberty
Heal inside of your head
And we will try it again
Blood like a sweat
Jail
Suppose we are the criminals
