We're calling in love

I got this loving

Our day is almost over
We've come this far
I'm listening to you, I can almost see your breath
Leave it all behind, let me hear your voice

A calling in love, a morning greeting to wake me
I put my hands up like I'm dancing
At 1:30, a voice that soothes me
I love that you're on my side
I, I love it, you're sweet like ice cream
Melt me before I fall asleep, boy
Turn up the volume
Sweet my darling, you call me today
We walk in the same time, we're calling in love
I got this loving, love you love you

Must be feeling you before falling asleep
You are my sleeping pill
Sorry to bother
I just need a moment to hear your voice in my ear
In rain
I listen to that sound and I found my self wet
In heavy wind
I curl up and I shiver once again
Oh baby, starlight in the sky is
Somewhat like the future of us two
The moon right next to it is like a pizza missing its pieces
When the pieces are put together
I feel good like I am together with you
To me this world is you

Oh baby this world is you
Baby I'm calling

I'm listening to you, I can almost see your breath
Leave it all behind, let me hear your voice

I, I love it, you're sweet like ice cream
Melt me before I fall asleep, boy
Turn up the volume
Sweet my darling, you call me today
We walk in the same time
We're calling in love

I got this loving
