Angels Hold Me

Surf Mesa

Hotel of light
I'll stay for the night
Top floor silence

Who said I'm good
They must've lied
My palms are violet

Feels like I been diving too deep
Love ain't never lasted for me
Falling and I'm down on my knees
All the angels hold me
Angels hold me
Feel like I been losing my sleep
Mornings never coming for me
Problems in my head on repeat
All the angels hold me
Angels hold me

Angels hold me
Angels hold me

All the angels hold me
Angels hold me

Angels hold me

All the angels hold me
Angels

Rest these tired eyes
With sweet sweet lullabies

Under the stars
Where do I start
In this crisis

Feels like I been diving too deep
Love ain't never lasted for me
Falling and I'm down on my knees
All the angels hold me
Angels hold me

Feel like I been losing my sleep
Mornings never coming for me
Problems in my head on repeat
All the angels hold me
Angels hold me

Angels hold me
Angels hold me

Feel like I been losing my sleep
Mornings never coming for me
Problems in my head on repeat
All the angels hold me
Angels hold me
