

DREAM

Surf Mesa

Well, all that really matters
Yeah, all that really matters today
Is knowing that we're out there
I just wanna live life today

Well, all that really matters
Is knowing that we're out there
I just wanna live life today

All that really matters
Yeah, all that really matters today
Is knowing that we're out there
I just wanna live life today

But I can't help, I can see myself in you
And sometimes I wonder if my dreams will ever come true

Well, all that really matters
Yeah, all that really matters today
Is knowing that we're out there
I just wanna live life today

Is knowing that we're out there
I just wanna live life today

Is knowing that we're out there
I just wanna live life today

Well, all that really matters
Yeah, all that really matters today
Is knowing that we're out there
I just wanna live life today
