

# First Time

Surf Mesa

It's a moment we dance in the night  
It's a kiss that you leave when you like  
And never let go  
All the wildfires inside of you  
Oh oh  
Are we dancing or passing through?

It feels like the first time that you got it  
The first time that you got it  
The first time that you got it  
Feels like the first time that you got it  
The first time that you got it  
The first time that you got it

And I feel that love (yeah)  
And I feel that love (yeah)  
And I feel that love (yeah)  
And I feel that love (yeah)

Feel my heartbeat when I look at you  
Are we dancing or passing through?

And I feel that love (yeah)  
And I feel that love (yeah)  
And I feel that love (yeah)  
And I feel that love (yeah)

It feels like the first time that you got it  
The first time that you got it  
The first time that you got it  
Feels like the first time that you got it  
The first time that you got it  
The first time that you got it

(On the first time)  
First time that you got  
The first time that you got it  
(On the first time)  
First time that you got  
The first time that you got it
