

# "10"

Surface

One for the money, and two for the show  
Three to get ready and where we go  
Nobody knows, nobody but you can read  
All the things to that like you do  
Let's jump into the car and go for a ride  
Don't mean to go fast but when you're by my side  
I lose it from one without your sweet perfume  
The look in your eyes sends me right to the moon

You're at 10, baby  
You carry yourself just like a lady  
You're at 10, baby  
You carry yourself just like a lady

For a thought she's gorgeous (she's gorgeous)  
And because she's light  
Because I can't keep her off of my mind  
I meant I do anything to let you know  
I'll gladly take you wherever you want to go  
7-Eleven, he consoles my sign  
Just let the '80s and here comes nine  
I have to let you know how I feel inside  
Even though I know you hear it all the time

You're at 10, baby  
You carry yourself just like a lady (lady)  
You're at 10, baby  
You carry yourself just like a lady  
You're at 10, baby  
You carry yourself just like a lady (lady)  
You're at 10, baby, oh  
You carry yourself just like a lady, oh

You got a lot of class  
And I wish that you were mine  
Please let me know if you have a little time, oh  
Efficient, take all the time we need  
Just see that you're thinking 'bout seeing me

One woman 'cause you look so fine  
Two and two because you blow my mind  
Three, you ever think of ladies should be  
And four, you're even much more  
And five, when you show out the door  
Six, I'm giving you 24 things  
Six, seven, you had to be sent from heaven  
Eight, nine, you read between the lines

(You're at 10, baby) You look so good to me  
(You carry yourself just like a lady)  
Oh, just look down, rock on, baby  
(You're at 10, baby) Oh so good  
(You carry yourself just like a lady) mmm...  
You're at 10, baby, you carry yourself just like a lady  
You're at 10, baby, you have a lot of love, a lot of drama, my baby  
(You're at 10, baby) Oh, you're at 10, oh, you're at 10  
(You carry yourself just like a lady)

Oh, you're at 10, you're so good to me  
(You're at 10, baby) Oh, baby...
