

## A World Of Our Own

Surface

Somewhere a dream away  
There is a better place, a brighter day  
Somewhere that's safe, somewhere that's free  
Where we can be together

[Chorus:]

So just close you're eyes and let me take you there  
To somewhere dreamers ever go  
It won't just a fantasy  
If you be there with me  
The two of us alone  
In a world of our own

A world of our own  
Where we know we belong  
A world of our own  
Where love is sure is strong can never die  
Lovers never say goodbye

Someday a light will shine  
And there will come a time  
That's yours and mine  
A time so sweet  
So clear and true  
We'll see right through forever

[Chorus:]

So wrap your arms around me  
And we'll leave it all behind  
We're going where no one else will ever find us

[Chorus: Repeat 2X]
