

All I Wanna Do Is Hold You

Surface

Baby, it's you, I don't know
It's just everything you do, it's just so right, it's so right
Baby, I just wanna hold you, baby

I never felt this way before with someone I can't seem to get enough
When I'm with you, I can't keep my hands to myself
I don't want anyone else
I'm in the mood all the time, you give me chills up and down my spine
Just relax and let me lay you down, baby, don't make the sound
'Cause I'm about to turn you out

All I wanna do is hold you in my arms
Hold you close and keep you, keep you warm
We can bump and grind, baby, all night long, keeping it real

Let's chill while I touch you there, let me rub my fingers through your hair
Making love all through the night, I'll do anything that you like

I'm in the mood all the time (all the time)
You give me chills up and down my spine
Just relax and let me lay you down, baby, don't make the sound
(Just relax and let me lay you down, baby, don't make the sound)
'Cause I'm about to turn you out, oh

All I wanna do is hold you in my arms
Hold you close and keep you, keep you warm
We can bump and grind, baby, all night long
(Baby, all night long) Keeping it real (keeping it, keeping it real, o yeah)
All I wanna do is hold you in my arms (in my arms)
Hold you close and keep you, keep you warm (ooh, keep you warm)
We can bump and grind, baby (baby) all night long (all night long)
Keeping it real

(Ooh-ooh-ooh-ooh-ooh, ooh-ooh-ooh-ooh-ooh)
Just relax and let me lay you down, baby, don't make the sound
'Cause I'm about to turn you out, oh

All I wanna do is hold you in my arms (all I wanna do)
Hold you close and keep you, keep you warm
We can bump and grind, baby (baby) all night long (all night long)
Keeping it real (keeping it, keeping it real)
All I wanna do is hold you in my arms (all I wanna do)
Hold you close and keep you, keep you warm
(Hold you, hold you, hold you warm, babe)
We can bump and grind, baby, all night long, keeping it real
(Keep it real)
