

Christmas Time Is Here

Surface

Why can't every day be just like Christmas
Everybody seems to feel the same
Love is in the air all around us
It's magical how we all feel this way
I think every day should be like Christmas
Everyone has something nice to say
It's seems we don't mind giving each other love
In everybody's heart it seems to grow

Christmas time is here
Love is in the air
Every man, woman, boy and girl's
Hearts are filled with love

Why can't every day be just like Christmas
I wish that someday we could find a way
I think we're all reminded we're still kids at heart
In the eyes of a child, we're all the same
If every day could be a day like Christmas
A smile would be on everybody's face
There would be no worries just lots of joy
And toys to share with every girl and boy

Christmas time is here
Love is in the air
Every man, woman, boy and girl's
Hearts are filled with love

We're all here together
It's so nice to see for family
Come together this year, this year

I know Christmas time is here
Love is in the air
Every man, woman, boy and girl's

Know that Christmas time is here
Love is in the air
Every man, woman, boy and girl's
Hearts are filled with love

Merry Christmas
Love, Surface
