

# Falling In Love

Surface

I need a little time alone with myself  
Just to put my thoughts together and to clear my head  
Seems I've come to a fork in the road, but where will I turn?  
No matter where I go I know there's something I can learn

Falling in love is ever so sweet  
When two become one, two people like you and me  
Falling in love is ever so strong  
Some say it's a miracle for two people like us to fall in love

No, there's nothing in the world that feels good like this (like this)  
Not the special way that two people in love do  
And I'm not afraid to say it's happening now (it's happening now)  
Ever since that first hello I knew I'd never let you go

Falling in love is ever so sweet  
When two become one, hey, two people like you and me  
Falling in love is ever so strong  
Some say it's a miracle for two people like us to fall in love

It's something that's beautiful could knock strong man down to his knees  
Yes, I know love is something that everyone understands  
No matter who or where you are, love it comes from the heart

Falling in love is ever so sweet (so sweet)  
When two become one (it's a miracle) two people like you and me  
(It's a miracle) falling in love is ever so strong (so sweet)  
Some say it's a miracle (it's a miracle) for 2 people like us to fall in love  
Falling in love is ever so sweet (oh)  
We could be one, start a family, you and me  
Falling in love is ever so strong (so strong)  
Some say it's a miracle (oh it's a miracle) for two people like us  
Falling in love is ever so sweet (so sweet)  
We could be one, start a family, you and me  
Falling in love is ever so strong (so strong)  
Some say it's a miracle (yeah, woo) for two people like us
