Happy

Surface

Only you can make me happy, happy
Only you can make me happy

I never thought that I
I'd find someone like you
I feel hypnotized
With the things you do

I'll never let you go, no
You're so right for me
I have to let you know
Forever you and me

Only you can make me happy, happy
Only you can make me happy, happy

You must be Heaven sent
Sent into my life
And I compliment you baby, baby

We have a love that's strong and true
It's true in every way
I want to be with you each and every day

Only you can make me happy, happy
Only you can make me happy, so happy

Only you can make me happy, happy, happy
Only you can make me happy, so happy yeah

Hello
How you doing baby?
You know I was just thinking about you
You know I am glad to call
Would you come in right over?
Beautiful baby
I'll be waiting
I love you too

You're all I need in my life
I don't need no one
I don't need no one but you
You're all I need in my life
I don't need no one
I don't need no one but you

Only you can make me happy, happy, happy
Only you can make me happy, happy, happy, so happy
Baby, baby, only you can make me happy
