Lately

Surface

Oh, dreams, dreams of you

I'll do anything to spend a little time with you
The way you turn my world all around, feels so good
When I go to sleep, late at night, all I see, girl is you
All I see is you
Baby, you blow my mind what am I supposed to do

Lately I've been dreaming to myself
And girl, I really want you bad
Lately I've been dreaming to myself
And girl, I really want you bad

Look into my eyes, what I'm going through
Might see something you like, a paradise for two, me and you
Oh, won't you take a little time now that you know how I feel
Don't need no lie detector to see I'm for real, I want you bad

Won't, won't, you do like you do
Late at night when I'm dreaming about you
Girl, you're one of a kind
I wish that you were my baby

Lately I've been dreaming to myself
And girl, I really want you bad
Lately I've been dreaming to myself
And girl, I really want you bad

Lately I've been dreaming to myself
And girl, I really want you bad
Lately I've been dreaming to myself
And girl, I really want you bad

Lately I've been dreaming to myself
And girl, I really want you bad
