

Love Zone

Surface

"I'm gonna take you away now to a place our love is gone
Just you and me, baby, come on, why don't you just relax and listen?"

I need you like no other love
I wanna please you (with you) this is all I wanna do
Hold you close to me, and rub you down
Run my fingers through your hair and take you there

To my favorite place, love zone
Where fantasies are made, love zone

The fire is burning (the fire is burning, yeah, let's make it cool)
It's getting hot by a minute, baby (mmm)
Tell me, are you ready for love? ready or not, here I come
Here and here I am (here I am, baby, here I am)
Where is all my love? (all my love)
Where will we go? we don't know, one on one

To my favorite place hey, love zone
Where fantasies are made, love zone

To my favorite place
(I'm gonna take you there, baby, come on, let me take you there)
Where fantasies are made
(I really wanna take you there, I wanna take you anywhere, yeah)
(Right there, baby) to my favorite place (to my favorite place)
Love zone (where dreams are made of)
To my favorite place (to my favorite place with you) love zone
To my favorite place, love zone (stop it)
Where fantasies are made (stop it, come on) love zone
Shut up, hey, love zone (mmm) love zone, love zone
