

We're All Searchin'

Surface

Tender love
Ooh, tender love

We're all searchin' for
The same thing
Tender love in our life
We're all searchin' for
The same thing
Tender love in our life
Only happiness brings

We're all searchin' for
The same thing
Tender love in our life
We're all searchin' for
The same thing
Tender love in our life
Only happiness brings

Show me the way
To the special place
What dreams do come true
For without a dreamer
There's no me, there's no you

We're all searchin' for
The same thing
Tender love in our life
Only happiness brings
We're all searchin' for
The same thing
Tender love in our life

We're all searchin' for
The same thing
Tender love in our life
Only happiness brings
We're all searchin' for
The same thing
Tender love in our life

Close your eyes
What do you see
Painted pictures memory
Imagination
Good as gold
Yours to keep, forever hold
There's magic
All around
In our life
To be found
There's magic
All around
In our life
To be found

We're all searchin' for

The same thing
Tender love in our life
Only happiness brings
We're all searchin' for
The same thing
Tender love in our life

There's magic
All around
In our life
To be found

There's magic
All around
In our life
To be found

There's magic
All around
In our life
To be found

There's magic
All around
In our life
To be found

There's magic
All around
In our life
To be found

There's magic
All around
In our life
To be found

We're all searchin' for
The same thing
Tender love in our life
We're all searchin' for
The same thing
Tender love in our life
Only happiness brings

We're all searchin' for
The same thing
Tender love in our life
We're all searchin' for
The same thing
Tender love in our life
Only happiness brings
