

When It Comes To Love / Echoes (Interlude)

Surface

All my love is waiting for you and no one change the way that I
feel
About holding on, you're all that I've got and all I ever need,
mmm
I hope you don't mind having some fun, if you wanna ride, let me
be the one
To take you on a natural high 'cause that's what I like

Let me take you far away to a place where dreams are made of
I know that our love will stay the same 'cause I love you

When it comes to love, you hold the key, yeah
I'm telling you when it comes to love, you're my fantasy

I'll educate you, you'll educate me, the wonderful thing that 2
people bring
When they fall in love we stay on the phone, all night you and
I, oh
We'll be locked inside a world of our own
I'll know what you like, you know what I want
We're so in tune to each other's vibe, this love is just right

Let me take you far away to a place where dreams are made of
I know that our love will stay the same 'cause I love you

When it comes to love, you hold the key, yeah
I'm telling you when it comes to love, you're my fantasy
When it comes to love, you hold the key, yeah
I'm telling you when it comes to love, you're my fantasy

(Oh-oh) We could always be together
(Oh-oh) Our love would never ever change

When it comes to love, you hold the key, yeah
I'm telling you when it, it comes to love, you're my fantasy
When it comes to love, you hold the key, yeah
I'm telling you when it comes to love
You're my fantasy, oh, oh, whoa, whoa, whoa, mmm, hmm... yeah
