

Where's That Girl

Surface

I'm searching high and low
I'm looking all around
Even looked up the stairs
I looked underground

Just like magic
She's out of sight
If she was candy
I'd take a bite

Where's that girl
Who masquerades
On the dance floor?
Got to find that girl
Who masquerades
On the dance floor

I need a private eye
I want her to be mine
Never thought that I'd find
Someone to blow my mind

When I first saw her
I froze in sight
She disappeared
Right before my eyes

I looked up and down
Searched north and south
Searched east and west
Is she in the house

Where's that girl
Who masquerades
On the dance floor?
Got to find that girl
Who masquerades
On the dance floor

Don't wanna leave this place
Don't even know her name
She left without a trace
She's driving me insane

She's so cool
She's burning up
Wish I could be the one
To feel her loving

She's the one that
Turns me on, she's the one
She's the one that
I'd like to see right here with me

Where's that girl
Who masquerades
On the dance floor?

Got to find that girl
Who masquerades
On the dance floor

Boys, where's that girl
On the dance floor?

See girl, it's love I need
If you were sure your face
I'd make you see
So you are the one

There's lots of drama
You know the mask
And the hairs not long

Where's that girl
Who masquerades
On the dance floor?
Got to find that girl
Who masquerades
On the dance floor
