

Who Loves You

Surface

Who loves you
Like I do
Nobody
No one else is gonna give you love

I'll do
Anything for you
Means so much to me
Whoever said that
Dreams don't come true

I'm a witness
'Cause I'm lookin' at you tonight
Every night I'm gonna fill your appetite
To the limit
Feeling right
My one and only
Sugar sweet delight

Who loves you
Like I do
Nobody
No one else is gonna give you love

Who loves you
Like I do
Nobody
Nobody

My friends
They think that I'm a fool
Falling in love
They never had
Oh, so good
That's something won't do
I'm gonna love you till hurts you
I'm gonna love you till its understood

I've been waiting for someone
Just like you for so, so long
Whatever I can do
Tell me, baby
Tell me, baby

Since you came into my world
I feel so alive
So alive
But the best that I can do
Is show you how much I care

Who loves you
Like I do
Nobody
No one else is gonna give you love

Who loves you
Like I do

Nobody
Nobody

I've been waiting for someone
Just like you for so, so long
Whatever I can do
Just tell me, baby
Tell me, baby

Since you came into my world
I feel so alive
So alive
But the best that I can do
Is show you how much I care

Who loves you
Like I do
Nobody
Nobody
