

Alone

Surfaces

Summer night and the weather's getting colder
Just a kid still afraid of getting older
Spend my time staring at the waves crash
And you're not here wish I never had to say that

Alone, still alone
Alone, and I wanna go home
Alone, still alone
Alone, and I wanna go home

When did we get in such a hurry
We moved to fast and the vision got blurry
Spend my time staring at the planes pass
And you're not here wish I never had to say that

Alone, still alone
Alone, and I wanna go home
Alone, still alone
Alone, and I wanna go home
