

## Come Around

Surfaces

G-force while the gravity is pullin' my skin  
I try to catch myself but can't help that I'm stuck in this spin  
It's been like this since you decided that you would let me in,  
let me in  
And you told me to close your eyes and let the music paralyze  
Drift off into paradise, and I'll meet you there

(Meet you there)

(Meet you there)

Oh, every time you come around  
I feel so high  
It's like I never touch the ground  
It feels so nice  
Oh, every time you come around  
I feel so high  
It's like I never touch the ground  
It feels so nice

Give the stars a kiss goodnight (Goodnight)  
Kiss you while you sit beside me  
And no, I never learned to fly  
But you're teaching me tonight  
Take me to your paradise  
Take me in your arms, grace me in your charms  
Girl, it feels so good to be with you

(Meet you there)

(Meet you there)

Oh, every time you come around  
I feel so high  
It's like I never touch the ground  
It feels so nice  
Oh, every time you come around (Every time you come around)  
I feel so high (I feel)  
It's like I never touch the ground (I never)  
It feels so nice  
Never touch the ground
