## Surfaces

Falling  
Oh I fall so hard for you, for you  
Falling  
Oh I fall so hard for you, for you

You keep me in the middle  
You keep me up all night  
You solved my every riddle  
You make it all just fine

Falling  
Oh I fall so hard for you, for you  
Falling  
Oh I fall so hard for you, for you

You are the one I want  
You are my endless light  
You were the first to dawn  
You have my hands of time

Falling  
Oh I fall so hard for you, for you  
Falling  
Oh I fall so hard for you, for you

You made me stumble over my words  
Had me tripped through my teeth  
Grabbed an ice pack sack for the back ache  
Cause I'm falling head over feet  
You took me back to your garden  
Told me never to leave  
Just one taste was enough  
Now I'm stuck here for eternity

Falling  
Oh I fall so hard for you, for you  
Falling  
Oh I fall so hard for you, for you
