

Islands

Surfaces

On islands high as the sky can go, oh oh
The view's just right and the clouds are just below, oh oh
On islands high as the sky can go, oh oh
The view's just right, and you know just what you know, you know
Feeling like the weekend, living with no ceilings
Tell me what your feeling, love
Pine and ginger peeling, summertime healing
Time is what we're stealing, love
So tell me what you know about this
Look up from your hand what you might miss
Living this high turns it all to bliss
Sunset glows, feel a sun kiss

Just some sunlit kids
Some sunlit kids, oh oh oh, oh oh
Just some sunlit kids
Some sunlit kids, oh oh oh, oh oh

On islands low as the earth can go, oh oh
The view's just right and the sand's between your toes, oh oh
On islands low as the earth can go, oh oh
The view's just right and you know just what you know, you know
Baby blue persuasion, the sky is what you make it
Your stars are always changing, love
The views are for the taking, never a vacation
Home is where you make it, love
So tell me what you know about this
Look up from your hand what you might miss
Living this low turns it all to bliss
Sand so gold, makes us all rich

Just some sunlit kids
Some sunlit kids, oh oh oh, oh oh
Just some sunlit kids
Some sunlit kids, oh oh oh, oh oh
