

# Keep It Gold

## Surfaces

Right from the start I knew we could never part  
Something magic in the way that you move  
Oh what a shame we could never feel the pain  
That our past tried to put in our view

This feeling it surrounds me, ohh  
Turning me around 'til I lose control  
This feeling it surrounds me, ohh  
I can see the sun is shining on your soul

So let's keep it gold, mm  
Darling we don't ever have to grow old  
Just keep it gold, mm  
Darling we got stories left to be told

Ok we got a new dawn, new day  
Go and grab your suitcase  
Same walk, new pace  
Go on tie your shoe lace  
Ain't got a lotta money, but got a lotta time  
So let's spend it where it's sunny  
Let us see what we can find

This feeling it surrounds me, ohh  
Turning me around 'til I lose control  
This feeling it surrounds me, ohh  
I can see the sun is shining on your soul

So let's keep it gold, mm  
Darling we don't ever have to grow old  
Just keep it gold, mm  
Darling we got stories left to be told  
Let's keep it gold, mm  
Darling we don't ever have to grow old  
Just keep it gold, mm  
Darling we got stories left to be told

We don't need no money  
To spread a little honey  
We got all we need here  
Just leave me where it's sunny  
We don't need no money  
To spread a little honey  
We got all we need here, just

Just keep it gold, mm  
Darling we don't ever have to grow old  
Just keep it gold, mm  
Darling we got stories left to be told  
Let's keep it gold, mm  
Darling we don't ever have to grow old  
Just keep it gold, mm  
Darling we got stories left to be told
