Let It Ride

Surfaces

There's a girl I know down
In San Francisco who
Never likes the snow so
She up and left her home to
Find a place in The Bay
Three thousand miles away
From all her younger days
A little lost as she says

All I ever wanna be is someone who's finally
Free from troubles I can't leave behind
And I say

Let it ride, let it ride, let it ride, let it ride
Oh, let it ride, let it ride, let it ride, let it ride
And I say
Let it ride, let it ride, let it ride, let it ride
Let it ride, mmm, let it ride, yeah, yeah, yeah

Oh, there's a guy I know up
In the rocky roads of
Colorado where the
Mountains always glow but
He's alone on most days
Had a few bad heartbreaks
Drivin' empty highways
A little lost as he says

All I ever wanna be is someone who's finally
Free from troubles I can't leave behind
And I say

Let it ride, let it ride, let it ride, let it ride
Oh, let it ride, let it ride, let it ride, let it ride
And I say
Let it ride, let it ride, let it ride, let it ride
Let it ride, mmm, let it ride

(Let it ride, let it ride, let it ride, let it ride)
(Let it ride, let it ride, let it ride, let it ride)
(Let it ride, let it ride, let it ride, let it ride)
(Let it ride, let it ride)
