

Open Water

Surfaces

Help me, I'm lost in open water
Tell me, is it even tangible
Move me, the moon is playing author
Show me, is this what I'm looking for

Another wave of floating through the same thoughts
Are we the past or in the current still lost
I feel the stars dancing on the same gloss
Is it space or the years that we still haven't crossed

Help me, I'm lost in open water
Tell me, is it even tangible
Move me, the moon is playing author
Show me, is this what I'm looking for

Help me, I'm lost in open water
Tell me, is it even tangible
Move me, the moon is playing author
Show me, is this what I'm looking for
