

# So Far Away

## Surfaces

(You don't feel so far away)  
You don't feel so far away  
You don't feel so far away  
You don't feel so far away  
You don't feel so far away  
Yeah, yeah

Well, I was crusin' down the street right out by the beach  
Two Birkenstocks on my feet (My feet)  
Yeah, I was walkin' through the park till past after dark  
Thinkin', "Where am I supposed to be?" (Supposed to be, yeah)  
I may have gone too far, way past the boulevard  
But I still see you in my dreams  
I figure I can be wherever, long as I can feel the weather  
And know that you never really feel so far away

You don't feel so far away  
You don't feel so far away  
You don't feel so far away  
You don't feel so far away (Wait, wait, wait, wait, wait, wait)

Well, it was half-past 2, swimmin' in the deep blue  
Got the seashells at my feet (My feet)  
Yeah, I was floatin' with the waves, soakin' up a summer day  
Feelin' all the colors in the reef (Supposed to be, yeah)  
I may have gone too far, way past the boulevard  
But I still see you in my dreams  
I figure I can be wherever, long as I can feel the weather  
And know that you never really feel so far away

You don't feel so far away  
You don't feel so far away  
You don't feel so far away  
You don't feel so far aw...

I'm feelin' closer, my baby  
Feelin' close to you lately  
Feelin' closer, my baby  
Feelin' close to you lately

I'm feelin' closer, my baby (I'm feelin' closer)  
Feelin' close to you lately (I'm feelin' closer)  
Feelin' closer, my baby (I'm feelin' closer)  
Feelin' close to you lately (I'm feelin')

I'm feelin' closer, my baby  
Feelin' close to you lately (I'm feelin' close, I'm)  
Feelin' closer, my baby (I'm feelin' close)  
Feelin' close to you lately

I'm feelin' closer, my baby  
Feelin' close to you lately  
Feelin' closer, my baby  
Feelin' close to you lately
