

Sunrise

Surfaces

Oh, take me to a place in time
Where the water's blue and the sand is white
Sailing through a dream in your mind
I just want to hold you 'til sunrise

Yeah, oh, send me your location
I need a destination
Record spinning like the sun and the moon in rotation location
One love our lives are one and the same
I'm lost I really need you to

Take me to a place in time
Where the water's blue and the sand is white
Sailing through a dream in your mind
I just wanna hold you 'til sunrise

I don't know where the best part lies
But I know where the ocean is
Sails up when the wind feels right
Taking us where the moment is
One love our lives are one and the same
I'm lost I really need you to

Take me to a place in time
Where the water's blue and the sand is white
Sailing through a dream in your mind
I just wanna hold you 'til sunrise

Take me to a place in time
Where the water's blue and the sand is white
Sailing through a dream in your mind
I just wanna hold you 'til sunrise
