With You

Surfaces

I've been waitin' all day just to press rewind
I've been waiting all day for you to hit my line
I've been waitin' all day just to steal your time
Maybe make you mine, let it all unwind
Cause you were there way before we got all famous
And you'll be there when we probly end up nameless
You're the only one I ever wanna stay with
Oh, you're the only one who understands my language
You're the only one who understands my language
And changes, all my different phases, let's face it

Oh, I don't care what we do, do, do
Oh, I just wanna be with you, you, you
Oh, tell me, tell me what's the move, move, move
Oh, I just wanna be with you, you, you

Summertime's over but not for me and you
Thinkin' bout the things we still have left to do
And I don't know what tomorrow's gonna bring
But if I got you, then I got everything
Now we're ridin' through the city with the seat leaned back
Got the window down lookin' through a kodak
You can play your music if you wanna do that
You said, I'll play you something slow life is moving too fast
And changes, all my different phases, let's face it

Oh, I don't care what we do, do, do
Oh, I just wanna be with you, you, you
Oh, tell me, tell me what's the move, move, move
Oh, I just wanna be with you, you, you
