

NW Passage

Surfer Blood

We have crossed the ice
Passed the facade of paradise
Over the cold expanse below
You and I have room to grow

We have found
We have found
Now we have found
Our Northwest Passage
Now we have found
Our Northwest Passage

Build it up then burn it away
The streets will wear and turn to clay
And I'll be there to see the day
You and I will grow, not decay

We have found
Our Northwest Passage
We have found
Our Northwest Passage
Now we have found
We have found

Letting in storms full of worry, then my
My whole life was as dry as a desert
I took a spill and I tasted the mud
And I knew my own heart had deflated

When we were right at the threshold
You showed me how to follow
You told me to learn but not hate
Forgive forget, oh oh
And when a fly landed on my plate
You reminded me not to notice
