

# Mine

## Surfer Girl

Why why why why

Summer like a fiction

Running through my mind  
Straight to my heart  
And back again  
From the second I met you  
Damn I felt so blessed  
Never dreamed of [?]  
A love like we could manifest

Love [?]  
When you hold me I just smile  
Every day

So I just wanna tell the world you're mine  
You're mine, mine  
I'm grateful for the way you changed my life  
You're mine, mine  
And I'm just tryna tell the world

Left right left  
No regrets  
We just friends  
Gotta let them know you're mine

Left right left  
No regrets  
We just friends  
Gotta let them know you're mine

Like Cagney and Lacey  
We like Bonnie and Clyde  
Wherever I go you go  
Where you go I go  
We down to ride

We've been so happy lately  
Finally found a peace of mind  
Wherever I go you go  
Where you go I go  
We're down to ride

Watch me screaming form the rooftop  
I've been sweating you I need a way to cool off  
[?] from the ground  
If I didn't have you by, I didn't have you by my side

Left right left  
No regrets  
We just friends  
Gotta let them know you're mine

Look what you've started  
You've stole my heart and  
Now there's no stopping

Gotta let them know you're mine

Look what you've started  
You've stole my heart and  
Now there's no stopping  
Gotta let them know you're mine

You're mine, mine  
I'm grateful for the way you changed my life  
You're mine, mine  
And I'm just tryna tell the world
